PWS Type Notes:

- C – Community Water Systems are state-regulated systems serving more than 14 residential households.
- NC – Non-Community Water Systems are state-regulated systems serving non-residential populations, at least 25 people per year, at least 60 days of the year.
- NTNC – Non-Transient Non-Community Water Systems
- SS - State Smalls are county-regulated residential systems serving between 5 and 14 households.

Table 2-3 Summary of Public Water Supply Systems that have Nitrate-Impacted Wells

DDW Water System Number	System Name	PWS Type Code	Number of Connections	Number of Wells in Public Water Supply System that have met or exceeded the Nitrate MCL of 10 mg/L as N by well status						Popu- lation Served by the PWS	Population Potentially Effected by Active Wells Exceeding 10 mg/L as N (Population Served)
				Active Wells	Agricultural/Irrigation Well – AG	Abandoned – AB	Destroyed – DS	Inactive Wells	Total Number of Wells At or Exceeding 10 mg/L as N
